

# INTERNET OF THINGS

The Smart Way to connect the dots and ease your life

## Module One: Overview

- Lesson-01: Internet of Things (IoT)
- Lesson-02: Importance of IoT
- Lesson-03: Problems Solved by IoT

## Module Two: Sensors & Devices for IoT

- Lesson-01: Overview of Sensors and Devices
- Lesson-02: IoT Device Hardware
- Lesson-03: How to Scale IoT for Operations Successfully

## Module Three: IoT Architectures

- Lesson-01: Three-layer IoT Architecture
- Lesson-02: Five-layer IoT Architecture
- Lesson-03: Six-layer IoT Architecture
- Lesson-04: Seven-layer Architecture

## Module Four: IoT User Interface and User Experience

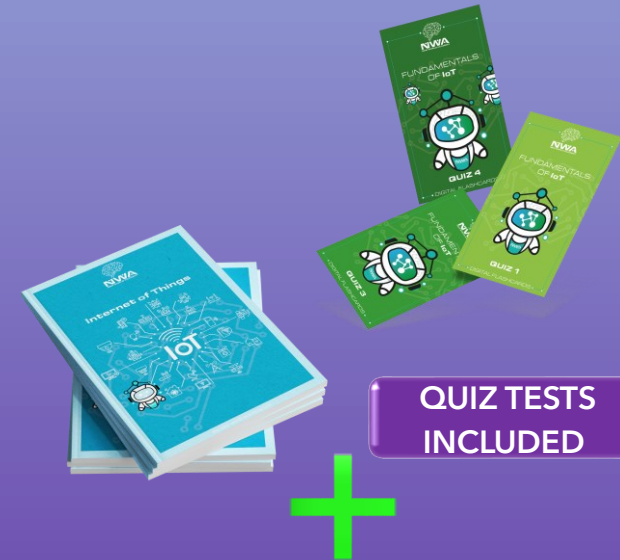

- Lesson-01: User Interface
- Lesson-02: IoT Designing Challenges and Solutions
- Lesson-03: Important Factors for UIs

History, Statistics, Life Cycle, Market Size Worldwide Components Ecosystem,

Features of IoT,

Key Concepts, Connectivity, Wireless Technology Applications per Industry ,

IoT For Home, The Security of IoT Devices

QUIZ TESTS  
INCLUDED

## STUDENT PASS

INTERNET OF THINGS FOR BEGINNERS

UNLIMITED  
ACCESS

SESSION START  
JANUARY 12<sup>TH</sup> 2023

VR AND WEB3.0 VERSION
